The Power of the Pool Lies in Volume Control.

+++

The Canadian Wheat Pool Now Handles ONE-FOURTH of the World's Exportable Wheat Surplus.

The Wheat Pool has given ample evidence of its usefulness to wheat growers since last harvest. Faced with the handling of a damaged crop and with a large increase in world production, the Pool has been successful to a considerable degree in preventing disastrous slumps. Every wheat farmer in Western Canada owes a debt of gratitude to the Wheat Pool.

The power of the Pool lies in its control of volume. Every bushel placed in the Pool means greater strength. The organization needs YOUR assistance.

The ideal of co-operation is working together for the common good. It is opposed to any system that makes a profit on the result of the labors of the producer. Its operations mean more wealth for all the producers.

Co-operation is not only a sentiment, but an economic necessity. Let the hearts and minds of our farmers become enthused with its ideals and there is hope for the economic future of agriculture.

You who have not signed the Second Series Wheat Pool Contract gain nothing by delay. You only endanger the welfare of an organization that has proven the best friend the farmer has ever had.

Wednesday Half-Holiday.

During the months of June, July and August all places of business in Stony Plain will close Wednesday afternoon at one o'clock.

LOCAL NEWS.

Mr Wm Stafford, Stony's well-known auto mechanic, is at present, touring Southern Alberta in a motor car.

Mr Sam Zucht left, this week, on a trip to the Peace River district.

Electrician Trapp has resumed his duties at the Service Garage, on his recovery from a minor accident.

A large force of men has been put on the job at the local Gillespie elevator, and construction work on the new building has commenced.

The Departmental exams, are on, this week, at the local High school.

The town and rural schools of Stony Plain district will have a School Fair this coming autumn. A committee of the teachers have the matter in hand, and are arranging a list of the articles to be exhibited and the prizes to be awarded the successful exhibitors.

Dance at Muir Lake, Friday, June 22nd.

Community Picnic at Spruce Grove, Friday, June 29.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, will be in Stony Plain on Friday, June 22.

Miss Powell's Birthday Party

On Tuesday, June 12th, a surprise party was given by a number of young people at the home of Mr & Mrs B G Powell, on the occasion of their daughter Ivy's birthday.

The evening was pleasantly spent in games and dancing. Music was supplied by John Pelmas, E Anderson, Miss A Liebert, M Bowser.

Many lovely gifts were received by Miss Powell in honor of the occasion. Refreshments were served at midnight by Mrs Powell and Mrs McKinlay, assisted by members of the younger set.

Those present were Mr & Mrs B G Powell, Mr & Mrs McKinlay, the Misses Ivy & Marjorie Powell, Olive Jamison, Annis & Mildred Liebert, Helen Wibray, Mabel Ellis, Elsie & Freda Litzenberger, Emily Schwartz, Margaret Ursel, Florence McKinlay, Florence Graden, Leone & Frances Maier, Elizabeth Williams, Margaret McEachern, Messrs E Anderson, M Bowser, J Eyjen, H and W Washburn, J Powell, W Litzenberger, S Jamison, P Ursel, Alex. Graden, Gordon Graden, H Williams, O K Anderson, J Pelmas, C & J Scott, D Powell, Dennis Powell, N Powell, E Kuhl, J Kuhl, E Willie.

"Safety First" on the Highways

The phenomenal growth in the number of motor driven vehicles on the highways of this continent constitutes one of the most amazing developments of modern times. The motor car has, in fact, completely revolutionized modes of living in the space of a very few years, and, equally so, has ushered in an entirely new era in the history of transportation.

It is not necessary to even enumerate the many changes which the general use of the motor car has brought about. These changes are brought to everyone. The result has been, of course, to likewise create entirely new problems which did not confront, and were never dreamed of, by the people of a couple of generations ago.

The motor car has forced governments and municipalities to completely re-organize plans and the work of road building because what was regarded as an excellent road for horse drawn buggies and wagons is quite obsolete in these days of motor traffic. The result has been to compel huge expenditures upon all governmental authorities, not only in the construction of a much higher standard of road, but in annual maintenance charges in order that such roads shall be kept up to that high standard, and shall be available for use at all times in all weathers.

In large cities, the multiplicity of cars has created congestion and traffic problems of the most difficult kind, and the number, power and speed of modern cars not only an hourly danger to each other and their occupants but to all pedestrians. Laws governing rates of speed, laws prohibitive of glaring headlights for night driving, and innumerable rules of the road in an effort to regulate this enormous and ever increasing traffic, have been passed. Many of these enactments were experimental and found ineffective. Amendments to laws have followed amendments in rapid succession, yet the toll of accidents and violent death mounts steadily higher and higher.

The fact might as well be faced,—it must be faced,—that only through the practice of the principle of "Safety First" by the people themselves,—all the people,—can the civilization of today really control this modern juggernaut which the inventive genius of this generation has brought into being and to such a high state of power and efficiency.

Legislative enactments, and arrests and fines for violation of those laws, will not, and can not meet the existing problems. Public sentiment and the public conscience must be aroused against those who habitually and wilfully disregard the laws and regulations passed in the interests of all people. The speed maniac, the man who persists in flashing blinding headlights in the eyes of all other car drivers, the crank who considers it an insult and a reflection upon himself and his car to allow any other car to pass him on the road, the crazy fool who not only disregards all safety precautions for himself but who is callously indifferent to the fate of others, and the common "roadhog" who ignores everybody's rights and selfishly arrogates whatever he desires to himself,—all these enemies to the welfare, enjoyment, rights, and even lives of others, must become taboo throughout the land and be ostracized by his fellow citizens in the community.

Every driver of a car should keep constantly in mind that it is a powerful machine he has in his control, and that the safe way is the sane way. Common sense will prevent accidents. Apply it. There is not only the law but an etiquette of the road. Observe it. Protect person and property—your own and the other-fellow's.

Two controllable factors enter into accident prevention on the streets and highways,—your car; yourself. Always observe, among others, the following simple rules for safety:

1. Keep your car right; see that the brakes, steering gear and headlights are in perfect working order.
2. Keep your eye on the road and your hands on the wheel.
3. In passing traffic, look ahead.
4. If a "road-hog" tries to pass you—let him.
5. Entering main streets and highways—stop and listen.
6. Don't rush through nor "loaf" in heavy traffic.
7. Signal before you slow down, stop, or change your course.
8. Look before you back up.
9. Obey the "Stop" signal.
10. Watch your "Step"—Don't "step" on the gas, the train will win.

Pretty Cashier: "I think I need a holiday for the sake of my health. My beauty is beginning to fade."

Manager: "What has put that idea into your head?"

Pretty Cashier: "The men are beginning to count their change."

"Hi, there," bellowed a policeman to an inebriated citizen, "you can't stand there in the street."

"Yes, I can orfsher" retorted the citizen proudly. "Don't you worry 'bout me. I be standin' here an' hour an' ain't fell off yet."

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, you no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go home—now—why this method is superior.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

SEA STRAIGHTENS ROMANTIC TANGLES

When May Christie, whose novels and articles are read all over the North American Continent, reaches an impasse with characters in her novels, she "sends them on an Atlantic voyage," to use her own words, because their tangles are unravelled on the ocean. Miss Christie, now married to J. S. Mazzavini, New York broker, is shown here on the White Star liner *Meganic*, leaving for England after spending ten months on the North American Continent, in which time she wrote two 76,000 word novels and forty-five articles.

Improving Our Highways

The total amount spent on the improvement and maintenance of Canadian roads during 1926 was approximately \$45,500,000.

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears When the Blood Is Enriched

The most urgent need of all who suffer from any form of indigestion is a tonic to enrich the blood. Pain and distress after eating is the way the stomach shows that it is too weak to perform the work of digesting the food it takes. New strength is given to weak stomachs by Dr. Williams' Pink Pills because they purify and enrich the blood. This accounts for the speedy relief in stomach disorders that follows the use of this medicine. The value of this medicine in cases of indigestion is shown by the case of Mrs. George W. Johnson, Lequille, N.S., who says:—"I have no hesitation in recommending Dr. Williams' Pink Pills. I was greatly distressed with indigestion. Always after eating I suffered from pains in the stomach and other distressing symptoms. I tried different remedies, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills, which I readily did, and I am feeling very grateful ever since to the person who gave me the advice. The very first box helped me and before I had taken a half dozen boxes I was restored to my former good health and all traces of this distressing trouble disappeared. It is now about a year since I took the pills, and I have not been troubled with indigestion since. I have taken every occasion to recommend Dr. Williams' Pink Pills to those in need of a medicine and shall continue to do so."

A little booklet, "What To Eat and How To Eat," will be sent free to anyone asking for it. You can get the pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Ship Muskat to Europe
What is believed to be a record for muskrat shipment from Canada has left on board the Canadian Pacific vessel "Beaverdale," bound for Antwerp. It consists of 140 muskrats, the foundation stock for muskrat ranches in Germany, Finland and France. The consignment was made up of 74 pairs and operated at a muskrat farm at Lindsay, Ontario.

For Burns and Scalds.—Dr. Thomas' Electric Oil will take the fire out of a burn or scald. It should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will abate and in a short time cease altogether.

A going clock is one that has been wound up, a going concern is one that hasn't been.

The gross area of the United States is 3,928,789 miles.

For Hay Fever—use Minkard's.

"POKER HANDS"

Recipes For This Week

(By Betty Barclay)

ECONOMICAL FUDDING

- 1 quart water.
 - 1 teaspoon salt.
 - 1 cup pearl tapioca.
 - 1 teaspoon vanilla.
 - 4 tablespoons butter.
 - 1½ cups brown sugar.
- Cook tapioca in water until transparent. Add other ingredients. Bake one-half hour.

LEMON DROP COOKIES

- 1-3 cup butter.
 - ½ cup sugar.
 - 1 egg.
 - ¾ teaspoon soda.
 - 2 tablespoons hot water.
 - ½ tablespoon lemon juice.
 - Grated rind 1 lemon.
 - ¾ cup flour.
- Cream butter; add sugar, gradually, and egg, beaten until thick and light, soda, dissolved in hot water, lemon juice, grated lemon rind, and flour. Mix well, drop from tip of teaspoon onto buttered baking sheet, and bake in a quick oven.
- To make crisp cookies, use one and one-half cups flour when making; chill thoroughly, roll very thin, sprinkle lightly with sugar, cut out, and bake.

Much of the experience a man gets comes too late to benefit him.

Continues Best Seller

Over Ten Million Copies Of Bible
Sold Last Year

The Bible continued to be the world's best selling book in 1927, establishing a new record of 10,034,797 copies, says the annual report of the American Bible Society.

Copies were published last year in 166 different languages and dialects, and the first complete Bible in the Luba-Lulu languages of the 2,500,000 Bantu natives of the Belgian Congo was issued by the Society.

There are 150 convicts serving life terms in prisons of Canada.

**Druggist Gave Her
Very Good Advice**

Miss Ruth Horowitz, Bronx, N. Y., writes: "Having been troubled with indigestion caused by constipation for several months, my druggist advised a purely vegetable laxative pill. I can safely say that since I am taking them, and only one each night, I feel like myself again and can eat most anything without fear of an attack."

Millions of Acres of Farm Land In the Western Provinces Still Available For Settlement

Information furnished by the department of the interior provides some interesting light on the extent of farming lands now available for settlement in Canada.

The bulk of farm lands available, of course, is in the western provinces. In Manitoba, Saskatchewan, and Alberta, there is altogether a total of 203,639,144 acres of land in the surveyed area. Of this amount Alberta has 57,850,701 acres, Saskatchewan, 78,613,310 acres, and Manitoba, 57,136,133.

It is rather surprising to note that of the total acreage in the surveyed area of the three prairie provinces, there remains but 23,167,000 undisposed of, or available for homestead.

In addition to the area of surveyed lands undisposed of there is available for settlement some 73,000,000 acres held by other interests. The Hudson's Bay Company holds 7,028,500 acres, the railways have 31,752,655 for school land endowment purposes there is a reserve of 9,342,700 acres, and now under grazing lease there are 25,799,800 acres, practically all of which represents farm lands.

Of the above total, aggregating 94,000,000 acres, a large proportion is at present rather remote from railway and transportation facilities, and much of it is in the dry belt or otherwise not suitable for immediate farming operations. The exact extent of the land suitable for farming purposes is not known although the topographical survey branch of the department of the interior has done a good deal of work in the direction of soil survey in recent years and has plans made for continuing the work over the next few years.

There is another factor contributing to the area of lands available in the three prairie provinces, of which Manitoba has 2,400,000 acres, Saskatchewan, 7,500,000 and Alberta, 8,500,000.

In British Columbia it is estimated there is a total of approximately 18,400,000 acres of such land available as well, that is the land held by private owners for purely speculative purposes. It is estimated that for farm settlement in the western provinces and in the old provinces that there are in the neighborhood of 4,500,000 acres of good farm land available for settlement along what is known as the railway belt and in the Peace River District.

There is therefore approximately 119,067,000 acres of land available for farm settlement in Canada west of Ontario.

To Overcome Gout

New Discovery Is Outlined At Meeting Held In Toronto

The discovery of a chemical compound which will compensate for deficiencies in the thyroid gland—which gland not only controls the growth of individuals but is responsible for that insidious growth, gout—was outlined by Prof. George Hargre, F.R.S., at a meeting of the Canadian Chemical Association at Toronto.

One of the principal elements in thyroxine is iodine, and it was found in the United States. He demonstrated with a map, that the less iodine in the water supply of a district the greater was the growth of gout.

A Scotchman was asked what he would do if someone left him a thousand pounds, and he replied: "Count it."

"But, Dick, if your wife knew?"
"She would tear my hair."
"Don't matter yourself." — Der Brummer, Berlin.

To Call Ourselves Canadians

National Council of Women Sees Desirability of Building Up Strong Canadian Citizenship

Establishment of a foundation fund of \$200,000 for the endowment and maintenance of the council, election of officers for the year, and the passing of two resolutions featured the closing session of the annual convention of the National Council of Women, held at Toronto.

A resolution on the use of the word "Canadian" was passed as follows:

"We have a federal statutory right to call ourselves Canadians, therefore we recommend that the provincial councils petition the provincial governments asking that in the matter of vital statistics, registration of births, issuing of death certificates the word 'Canadian' shall be used by those entitled to do so, and that as it is desirable with a view to building up a strong, loyal and homogeneous Canadian citizenship as an integral part of the British Empire, that the citizens of Canada, whatever their race or origin, should be designated as 'Canadians.'"

A Charming Frock For the Large Woman

The attractive novelty silk crepe model pictured here is one of the season's smartest frocks. The long collar and front panel are of contrasting material and give the much-desired slenderizing lines. There is a shirred inset at each side of the front, tucks at the shoulders, and long sleeves gathered into wristbands. Sizes 36, 38, 40, 42, 44, 46, 48 and 50 inches bust. Size 38 requires 3 1/2 yards 36-inch, or 2 1/4 yards 54-inch material. Price 25 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

The Granting Of Credit

Banking Facilities Available To Farmers Have Greatly Improved

Credit used to be extended for the most part only to governments and rulers and potentates. With the growth of commerce came commercial borrowing. But the granting of banking credit to individuals not engaged in commerce only recently became an important factor in this country.

To buy on the installment plan meant the granting of credit on a scale never before known. This credit was extended by the seller, but the installment seller usually turned to some financial institution to share the burden.

Meanwhile machinery has been organized in most parts of the country to enable farmers to borrow on reasonable terms. The banking facilities available for our farm folk today are incomparably better than they were even a few years ago.

Both movements represent the democratization of credit.

The Effect of Sun Spots On Living Conditions Is the Subject of Scientific Investigation

The Sun is usually looked upon as a permanent body radiating steadily a life-giving stream of energy. True, he comes and goes with day and night, and rises and declines in the heavens with the changing seasons, but these apparent deflections are ascribable to the vagaries of the earth. However, on many occasions during the past twenty centuries, keen eyes have detected and recorded the presence of dark spots on the Sun, at times when he was sufficiently dimmed by smoke or haze to be closely observed. These spots march across the surface of the Sun indicating a period of rotation of about twenty-six days. They wax and wane in size and numbers in an irregular period with an average length of about eleven and a half years. The telescope and spectroscope reveal the fact that the dark spots are accompanied by brilliant clouds especially rich in the light of glowing hydrogen and of calcium, the ultra-violet light of the latter constituting a relatively large proportion of all the ultra-violet light of the Sun.

Ultra-violet light has the power of disrupting gases at low pressure and liberating electrons. Hence it is not surprising that the northern lights and magnetic effects on the earth have been found to pulsate with the spottedness of the Sun.

It has been observed also that the polar caps of the planet Mars melt more rapidly when spots are plentiful on the Sun than when they are few in number; and that Encke's comet in its return every three and a half years is brighter at or near the time of sun-spot maximum than at minimum; and also that certain errors in the predicted positions of the Moon and planets coincide with a longer period in solar spottedness of sixty or seventy years. Consequently, it has not been without reason that a great number of investigations have been made in the search for a relationship between the variations in the Sun and in the weather and in living things. This is one of the objects of research at the Dominion Observatory, Department of the Interior, Ottawa.

In such a search effort has naturally been mainly confined to those records, unfortunately too few in number, which cover long periods of time. Scarcely as they are they have revealed an eleven-and-a-half-year period ex-

isting in various terrestrial phenomena, and in a few cases where records of both living things and the weather were kept, the relationship to sun-spottedness is still more convincing.

In the case of the auroral and electro-magnetic effects, as mentioned above, the relationship is at once apparent; in that of rainfall in some localities the pulsation of eleven-and-a-half-years (in the mean), shows a decided correspondence to the solar variations; temperature, barometric pressure, and numbers of storms have likewise shown the same periodic pulsations. A similar rhythm has been noted in dates of migration-arrivals of birds in France (Chandon records, Montdidier); numbers of rabbits in Canada (records of Hudson's Bay Company); marriages, births, and deaths in Russia (for the longer period of seventy years); influenza; growth rates of cotton and of corn in some localities in the United States. But perhaps the most valuable of all records are those obtained from the varying thickness of the annual rings in the giant redwoods of California during their three thousand years of growth. The measurements of these rings correspond so conclusively with the European records of sun-spots of the last three hundred years, that they may be regarded as yielding information concerning the solar variations during the centuries for which we have only the fragmentary Chinese records of sun-spots. The existence of the eleven-and-a-half-year sun-spot cycle and its reflection in terrestrial conditions, probably many thousand years ago, appears likely from the testimony of a Sitka spruce recently released by the recession of a glacier in northern British Columbia and measured at the Dominion Observatory.

We may confidently look forward to the time when accumulating knowledge of sun-spots and other solar effects will provide a basis for valuable predictions concerning the weather and living and economic conditions. At the present time, however, notwithstanding statements which have appeared in the press, our knowledge is too incomplete to make definite predictions. The realization of our dependence, and that of all the forms of life within our ken, upon the Sun is inducing astronomers, scientists, and statisticians, the world over, to bend their efforts to a clearer elucidation of the relationship of sun-spots, and other solar phenomena to conditions on the Earth.

Demand Exceeds Supply

Government Poultry Plant at Oliver, Alta. Does

Over ten thousand chicks have been distributed during the past spring from the Provincial Government poultry plant at Oliver, Alta. Officials in charge of the plant report that the demand has been greatly in excess of the supply and that many applicants have been referred to other breeders and hatcheries for their requirements. The breeds represented in the shipments include White Leghorns, Barred Rocks and White Wyandottes. Over three thousand chicks are being reared on the farm this summer. In view of their increasing economic importance, a beginning is being made this year with turkeys.

No man can make a mountain, but the majority can make a big bluff.

AUTO-SUGGESTION

"You are 21 My being is in yours. What do you feel?"
"That your breakfast did not agree with you." — Juergens, Munich.

Two High Hatted

Captain McPhee is very high hat. The "Beaver" was presented to him by "Miss Fort William" on behalf of the harbor officials upon the arrival of the Canadian Pacific S.S. Keewatin, the first steamship to reach the head of the lake this season.

Incidentally, this vessel opened the port of Saint Ste. Marie, where the skipper received his first topper, Captain McPhee thinks that the hats may be handy when he receives Kings and potentates aboard the Keewatin this summer, but he will stick to uniform on the bridge.

Studebaker and Erskine cars are becoming increasingly popular throughout the Dominion.

Studebaker To Build Canadian Automobiles For Canadians

Friendly Divorcement Of Canadian Organization From Studebaker Corporation Of America

With the announcement of a far-reaching reorganization of both administrative and manufacturing policies, the Studebaker Corporation of Canada, Ltd., has assumed a front rank position among the Dominion's largest independent manufacturers. The announcement, which indicates a friendly divorce of the Canadian Studebaker organization from the Studebaker Corporation of America, was issued by A. R. Erskine, president of both industries.

The new Studebaker organization will be directed by D. R. Grossman, formerly sales manager for Studebaker in the Dominion. Mr. Grossman's title will be vice-president and general manager. Having been associated with Studebaker in Canada for the past six years, Mr. Grossman is well known to the Dominion's automobile lovers.

"The motive behind the reorganization is to be found in the desire to build Canadian Automobiles for Canadians," says the statement. "The Studebaker Corporation of Canada, Ltd., is Canadian. We will use more and more of Canada's great supplies of raw materials. Not only will our consumption of these commodities be increased, but new commodities will be added to our purchasing agent's order list."

"We want to build automobiles for Canada and we want Canadians to approve of them. It is felt that the time has come to go ahead and no time will be lost in increasing the number of cars actually built in Canada. We hope to secure greater efficiency than has been possible in the past, which will result in greater automobile values for Canadian purchasers."

"Continuing the precedent already established, the personnel of the Canadian organization will be almost exclusively Canadian. In addition,

New Studebaker Organization

D. R. Grossman, vice-president and general manager.

present plans contemplate that advertising and printed matter shall be prepared in Canada, and, in short, a large percentage of every dollar spent in connection with the Canadian business shall be paid to Canadian individuals and Canadian firms.

"The new arrangement will mean a gradual increase in the number of employees at the Walkerville plant. Branches are now maintained at Montreal and Calgary. These will also be greatly increased. "This move is a result of Studebaker's faith in Canada," said Mr. Grossman recently. "We believe there will be wonderful developments in this country and through this expansion program, we will naturally become a part of those developments."

proper solutions, and holds it up to the light to see if his picture is there. What else did this Great Teacher do on that day but hold up those souls to the light to find out if the reflection of the Son of God were fastened there?—J. M. Stiller.

JESUS THE SAVIOUR

Golden Text: "Choose you this day where ye will serve."—Matthew 23:15.
Devotional Reading: Zephaniah 2:14-17.

A Review By Means Of Allusions
Not always on the mount may we Rapt in the heavenly vision be;
The mount for vision—but below
The paths of daily duty go.

—P. L. Homer.
Render to all what is due them, whether you agree with them wholly or not. Give to secular authorities the obedience which their office requires.
—Dean Stanley.

Sometimes the man has been vouchsafed a vision, but he has lost himself in its contemplation. It is as if he had tarried in the mount and had never returned.—George Wharton Pepper.

Everything in Palestine which can be walked in and round over is shut away from the sun and the stars, and generally with a stall for traffic in photographs, picture postal cards, and souvenirs. The money-changers have got back into the temple again.
—Galen Glenn Alkire.

"In memory of the Saviour's love
We keep the sacred feast,
Where every humble, contrite heart
Is made a welcome guest."

We see These lifted up as a sign drawing all men unto that hapless bill with the resistless power of Love Divine.
—Martha Poole Crow.

"The Missionary Union of America once prepared spices and oils for the embalming of the work in Telugu, but where they prophesied death, there has been abundant life, and the joy of their disappointed belief has filled all Christendom."

There is a sighing in the pallid sprays
Of these old olives, as if they kept
Their pining watch, in Nature's faithful ways.
As on that night when the disciples
Slept.—Katherine Lee Bates.

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued)

It was just a step to Canada House and a reception by Ugo Hon. Peter Larkin, High Commissioner for Canada. We were all impressed by the appearance of Canada's headquarters in Great Britain. Overlooking Trafalgar Square, Canada House occupies one of the most commanding sites in London, and does honor to our Dominion. There was no formality, no speeches, just a friendly handshake and a few words for all in the private room of the high commissioner.

Now came the event of the day, the reception at St. James'. It was not a grand affair, not seated but standing, the simple state place of red brick after passing its castellated gateway smiled by the smiling faces of the farmers. This place which we Canadian farmers were entering had been the home of Charles the First, and is today the scene of Leves and Privy Councils. We mounted the beautiful stairway to the Entrance Room. A short wait and the Prince was in the Audience Chamber ready to meet us. The door opened. There was His Royal Highness, not seated but standing at the entrance with a smile of welcome. We were introduced by Mr. Groff who performed a feat of memory by remembering all our names.

The Prince had a handshake, a smile and a few words of greeting for every member of the party, but his friends and neighbors from Alberta were specially honored. Mr. V. H. Sharpe, who once played the pipes at a party on the Prince's ranch, was introduced by His Royal Highness, who asked Mr. Sharpe if he had brought his kilt. The Prince asked Mr. C. H. Marshall how their mutual friend 7U Brown was getting on, and Mr. P. J. Tooley, of the Peace River, was questioned about railway problems and the probability of railway connection with the Pacific coast. The interest of the Prince in Canada was spontaneous and real, and we were delighted with his evident regard for our great Dominion.

After the reception we were shown through the Armoury, Queen Anne's Drawing Room, the Tapestry Room, the Throne Room, and the Picture Gallery, with its Royal portraits donated by the "Great Officers of the Garter" at one end of the room, and Queen Victoria at the other.

Our next appointment was at Harrod's great stores where we were entertained by Sir Woodman Birbidge, head of this great firm, to lunch, afterwards visiting the Provision Shop and some of the factories of this great establishment. Harrod's is perhaps the finest department store in London and its provision shop is a model for such establishments. Canadian products have a prominent place in it.

Our official day concluded with a visit to the London Headquarters of the Danish Bacon and Co-operative Trading Company through which passes a large part of the Danish bacon supply to the British Isles. In a single fortnight as many as 400,000 sides have been received and distributed from this one plant. Sides acting as a distributing centre, the company operates thirty smokehouses and is interesting to learn that a thick pickle-like substance which encrusts the walls, the result of many years' deposit, imparts to the bacon much of its aroma and flavor. The deposit is caused by the volatile oils which bacon sides exude while curing.

Non-resinous wood is used in the curing process is approximately 7 per cent.

Every bacon side bears several stamps which permits the Danish Bacon Co. to trace the origin and date of delivery of every piece of meat that reaches its establishment, and obviates any possibility of bacon being distributed in any way may have been held up over long at the producing point, or shipped too soon to take advantage of satisfactory conditions. The sides are graded by experienced men who, through long association with the British market, know accurately the requirements of each of the customers of the Trading Company.

The British custom of serving 4-0'clock tea in business offices is fast "taking on" in Canada. Many Canadian, as well as British-born, executives now order Red Rose Tea for their office staffs, because it is the same quality as the finest English teas. Sold by all grocers, in bright, clean aluminum tins.

NO NEED FOR STOUTNESS

MAIGRIR is the correct method of scientific fat reduction—a guaranteed harmless and effective remedy. Does NOT contain THYROID or any other injurious drugs. Use this marvelous remedy—satisfaction or money refunded. Sent by mail only, postpaid in plain wrapper. Price \$1 per box or 10 boxes for \$10.00. Write—

MAIGRIR DISTRIBUTORS, LTD.

Dept. W P. 2
525 Pacific Bldg., Vancouver, B.C.

INVENTORS

Patents are made from simple inventions wanted by manufacturers to supply the ever increasing demand for new and improved products. "Patent Protection" and magazine "The PATENT PATENT" are sold by H. C. SHEPMAN & CO., 74 Metcalfe St., Ottawa, Canada.

The Danish Bacon Co-operative Trading Company is an example of a combined producer-consumer co-operative organization. Half of the capital stock is in the hands of 10,000 retailers, large and small, scattered throughout the British Isles. The other half is owned by 17 Danish Bacon Factories which supply the carcasses. This organization, bringing together as it does, a single distributing body, the producers and consumers of given commodity, tends to the Company's great internal strength.

The Company in London undertakes to accept all suitable bacon as it is shipped from the 17 factories in Denmark, and it is its proud boast that it has never refused to handle all supplies shipped to it regardless of the condition of the market.

(To Be Continued.)

GREAT PRAISE FOR BABY'S OWN TABLETS

The Dr. Williams' Medicine Co. have received the following letter from Mrs. Griffith, of 21 Merchiston Ave., East Hamilton, Ont., concerning her experience with Baby's Own Tablets.

Dear Sirs,—I wish to thank you for the handy little booklet you sent me on the Care of Children. My baby boy was six weeks old when I first used Baby's Own Tablets, being new to Canada but since the first proof of their many uses in bringing up a family, I have never been without them, for they are worth their weight in gold. There is no trouble in getting the little ones to take them and they often prevent an illness if taken in time. My first baby is now, at the age of four and a half years, a picture of health, and my nine-months-old baby is well and happy. They are both a real good sample of what Baby's Own Tablets can do, for I have never yet needed a doctor or either of them.

The booklet to which Mrs. Griffith refers is entitled "Care of Children" and treats with what a mother ought to know for baby's sake. A copy of the booklet will be sent free to anyone requesting same from The Dr. Williams' Medicine Co., Brockville, Ont.

Toronto is to have a corn-borer inspector, but what is really needed is an official to get out folks who berry books and never return them.

Some women wear gloves most of the time and others have diamond rings.

ITCOW DIMPLES AFFECTED FACE

Also On Neck and Body. Healed by Cuticura.

"Eczema broke out in pimples and affected my face, neck and body. I itched and burned so that I was all the time scratching. My face was disfigured, and my clothing used to rub against and break out on my body and aggravate it. I could not get any sleep on account of the trouble. I began using Cuticura Soap and Ointment, and it afforded relief in about a week. I continued using them and in three weeks I had it completely healed." (Signed) Miss Rosie Whitman, Beaver Harbor, N.S.

Rely on Cuticura Soap and Ointment to keep your skin clear. Sample each free by mail. Address: Cuticura Sales Co., Dept. 100, P.O. Box 26, Portland, Me. Cuticura Soap 25¢. Cuticura Ointment 25¢.

For Rheumatism use Minard's Liniment.

A promise is but a small outlay from which large returns are expected.

GOOD ADVICE FROM MOTHER OF SEVEN

Recommends Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I began taking Vegetable Compound for nerves and other troubles and it must say I felt different after the first dose. I have been told this last six months that I look twenty-five, although I am now forty-seven and have had seven children. I have taken the Vegetable Compound regularly for some time and sleep well, rise early and feel young."—Mrs. McKen, 15 Laurier Ave., Toronto, Ontario.

W. N. U. 1738

HARVEST HELP FROM BRITAIN IS SUGGESTION MADE

London.—The Canadian harvest will soon be due. Why not an arrangement between the Dominion and Home Governments and all the parties most likely to help for 10,000 Britishers to be provided with work during the coming harvest in Canada?

William Lunn, M.P., of Rothwell, makes this suggestion in the Yorkshire Evening Post. He is an ex-chairman of the Overseas Settlement Committee, and still a member of that body.

"In July last year," he proceeds to say, "an arrangement was almost arrived at for 10,000 to go to Canada, of whom 5,000 would be miners. The conditions were to give cheap passages, guarantee employment at not less than 4 to 5 dollars a day, and to assist in bringing those back who could not find permanent employment."

"One lady promised to pay the expenses for 150 South Wales miners, and others were prepared to help with smaller numbers. Just when everything was in order for the project being carried out, it unfortunately fell through."

"No doubt three out of four would settle permanently in Canada. Those who seriously desired to return should be helped in cost of passage home," he said.

These 7,000 or 8,000 who make their homes in Canada would become nominees. Then they would be likely to nominate their wives, sweethearts, sisters, brothers, and in many cases, their fathers and mothers.

"That is the most satisfactory way of populating the Dominions. Here is the pebble which, if thrown into the pond, will begin the circle which is likely to enlarge and enlarge to enormous dimensions. Cannot something be done, and done soon?" asks Mr. Lunn, in conclusion.

Westerners Win Scholarships

Alberta and Saskatchewan Students Will Pursue Technical Studies

Quebec.—Chosen as the most outstanding and valuable member of the Canadian Society of Technical Agriculturists, Prof. H. M. Nagant, professor of geology and chemistry at the Oka Agricultural College, of the University of Montreal, was unanimously awarded the fellowship prize at the closing session of the agriculturists here.

The \$600 scholarship prizes, gift of the T. Eaton Company, were awarded to R. H. Bedford, of Alberta, to study soil bacteriology at McGill University, Montreal, and R. C. Russell, of Saskatchewan, to study plant pathology at Toronto University.

It was officially decided that the convention of the agriculturists next year will be held at Winnipeg.

Alberta Pool Making Interest Payments

Farmers Are Receiving Amount Due On Elevator Deduction

Calgary.—The Alberta Wheat Pool is issuing cheques covering the payment of six per cent. interest due on the elevator deductions from the crops of 1924 and 1925, it was stated at the offices of the pool.

The total payment amounts to \$57,161.03. In instances where the interest does not total the sum of one dollar, no payment is being made.

The six per cent. interest is paid on a total of \$1,345,384 which was the total deduction for elevator purposes from the 1924 and 1925 crops.

Danish Aviators Killed

Copenhagen.—Three Danish aviators were killed after leaping from a naval seaplane which exploded while they were flying over Copenhagen. The aviators, a pilot and two cadets, leaped from the plane but their parachutes failed to unfold and they fell on the roofs of houses, being killed outright. Their machine crashed in a densely populated area and injured a boy.

W. N. U. 1738

Appeal Was Rejected

Privy Council Gives Decision On Alberta Coal Case

London.—The decision of the Privy Council judicial committee rejecting Alberta's appeal in the coal mining tax case has the effect of depriving that province of large revenues which it had hoped to collect on the production from coal mines. The Privy Council upholds the decision of the Supreme Court of Canada that Alberta mine owners tax act of 1923 which placed a tax on every ton of coal mined in Alberta is ultra vires of the province.

The province's test case was launched against the Canadian Collieries, Limited. The judgment of the Privy Council states that it is undisputed that though the tax was called a tax on gross revenue, such gross revenue is really an aggregate of the sums received from the sales of coal and is indistinguishable from a tax on every sum received from the sale of coal.

The judicial committee agreed with the judges of the Supreme Court that the tax was not a direct tax. Some attempt had been made in the argument to support the tax on the ground that it was analogous to income tax, but it was pointed out that there were marked distinctions between a tax on gross revenue and a tax on income which for taxation purposes means gains and profits. There may be considerable gross revenue but no income taxable as income tax in the accepted sense.

The appeal was therefore dismissed.

U.S. Farmers Complain

Say Canadian Competition Is Dangerous Factor In Agrarian Development

Seattle.—Canadian competition in grain growing has become a "dangerous factor" in the agrarian development of Washington, J. Carl Lamey, state secretary of the farm bureau, testified at the Interstate Commerce Commission farm hearing. Agrarian representatives appeared before the commission recently, urging the necessity of low export grain rates. Supported by voluminous exhibits, Lamey gave a comprehensive comparison of farming conditions between the grain districts of Western Canada and Eastern Washington. He asserted that aid given to Canadian railways and the government was attracting growers from Washington to Canada.

With cheap land, low taxes, low grain rates and fertilizer, Alberta ranchers can not only raise grain at a cost of several dollars an acre lower than those of Washington, Lamey said, but they can reach both their eastern and western markets at a much less cost.

Lamey said the average cost to the Canadian farmer including everything until the grain was placed at elevators was \$14.70 an acre, whereas on the American side of the border line it was \$20.58.

He added that with such a wide spread in their favor the Canadian grain growers were rapidly driving Eastern Washington wheat from the export market.

Searching For Bodies Of Kamloops Victims

Eight Of Twenty-Two Have Already Been Recovered

Port Arthur, Ont.—A tug and launch have left here for Isle Royale to conduct a further search for bodies from the steamer Kamloops, which was lost off the Island last December.

The expedition has been organized by Captain H. J. Bryan, of Kingston, brother of Captain Bryan, of the Kamloops, and is financed by him and relatives of other missing ones among the crew of the Kamloops. It is proposed to patrol inland as well as along the shore line. Eight bodies of the 22 on the boat have already been recovered.

Is Successful Candidate

Toronto.—Miss E. Silver Dowling, lecturer in botany at the University of Alberta, is the successful candidate for the annual scholarship awarded by the Canadian Federation of the University Women's Clubs.

PRESIDENT OF THE I.O.O.F.

Mrs. John A. Stewart, of Perth, Ont., was elected national president of the Imperial Order Daughters of the Empire at the annual meeting in Toronto. She succeeds Miss R. M. Church, of Toronto, and sister of T. L. Church, M.P., who is retiring from that office after three years of work in the order.

Report Shows Big Increase

B.C. Department Of Agriculture Announces Gain In Production

Victoria, B.C.—Agricultural production in British Columbia in 1927 is valued at \$76,999,309, the highest sum on record, and an increase of \$5,837,000 over 1926, the Department of Agriculture announces.

Substantial gains were made in livestock, poultry products, dairy products, fashers, honey, hops and wool, while decreases were noted in fruits, vegetables and grains. Imports of agricultural products from other provinces in Canada were valued at \$16,648,703, against \$17,437,350 in 1926, while imports from foreign points increased from \$3,622,011 to \$5,593,084. Exports of agricultural products for the year amounted to \$10,025,735, an increase over the previous year of \$1,647,095, or 19.23 per cent.

Will Form Pool
New Westminster, B.C.—Fraser Valley poultry men and women at a meeting here decided to form an egg and poultry pool in British Columbia. A committee was appointed to nominate a committee representing all poultry sections of the province which will draw up a constitution.

India Ready To Renounce War
Washington.—The Government of India has accepted the invitation of Secretary Kellogg to participate as an original signatory in the proposed multi-lateral treaty for the renunciation of war.

Ice Delays Seaplanes

Machines Ready For Survey Of Conditions At Fort Churchill

Ottawa.—Ice on the small lakes in the vicinity of Fort Churchill is holding up the dispatch of the two Canadian Air Force seaplanes which are in readiness to fly to the Hudson's Bay port for the purpose of surveying the break up conditions there.

It was stated at the Department of National Defence that the two planes are at present at Comorant Lake, North of The Pas, and are awaiting favorable conditions before proceeding to their destination. The duty of their pilots will be similar to that which has occupied the Hudson's Straits air patrol last year, to observe the movement of ice out of the Churchill River and through the inlet on the shore of which Canada's Northern port will be constructed. This year a wireless station will be built at Fort Churchill, the workmen, equipment and machinery for which will be taken there some time next month.

Cattle Shipped To England

Over Three Hundred Head Sent From Calgary Recently

Montreal.—The first shipment of cattle on the hoof to leave Canada for over a year arrived in Montreal at the East End stockyards over the lines of the Canadian Pacific Railway, on its way to England. Over 300 head of cattle were in the train of 17 cars, averaging 18 animals to a car, with a stockman aboard for the care of every 23 cattle that made the trip direct from Calgary to Montreal.

The shipment is being accompanied by Francis Burns, of Calgary, and Arthur Hilliard, veterinary surgeon, who supervises the health of the stock from Calgary to Birkenhead, together with a staff of stockmen under Archie McGinnis, foreman.

Beatty On Trip To England
Quebec.—E. W. Beatty, K.C. president of the Canadian Pacific Railway, and Sir Herbert Holt, president of the Royal Bank of Canada, have sailed for England. While on the other side Mr. Beatty will let a contract for a new steamship of the Empire class, to be used on the Pacific Coast routes. It is tentatively arranged that Mr. Beatty will visit Stanley Baldwin, British premier.

"Flapper Vote" Bill Passed

London.—After an unsuccessful attempt had been made to raise the qualifying age, the House of Lords in committee last evening passed the franchise bill, which gives the vote to women 21 years of age and over. The House of Commons had already approved the measure.

HE DID IT IN ONE

Robin Bell-Tving, of Powell River, B.C., the first amateur to make a hole in one on the Jasper Park Lodge Golf Course. He accomplished it at the fifteenth, which has a name that speaks for itself—the Bad Baby. Incidentally, he is the first player, amateur or professional, to do the Bad Baby in one.—Canadian National Railways Photograph.

SIR A. CURRIE NEW PRESIDENT CANADIAN LEGION

St. John, N.B.—General Sir Arthur Currie was elected president of the Canadian Legion of the British Empire Service League at the second annual Dominion convention here.

Following the announcement of his unanimous choice a telegram of congratulation was dispatched to the former leader of the Canadian troops in France, coupled with the wish for a speedy recovery to health.

Lieut.-Gen. Sir Percy Lake was named immediate past president. The importance of not bringing boys and girls of tender age, unaccompanied by parents or guardians into Canada was stressed in debate as was also the necessity of setting before foreign immigrants Canadian ideals before they could be corrupted by communistic teachings.

A. E. Moore, Manitoba, was recommended national chairman and preceded during the deliberations, when many resolutions were brought in by delegates of the various provinces. Some of the most important of these—to the Dominion as a whole—were submitted by the committee on immigration, and the committee, headed by P. Shelton, of Regina.

The recommendation of this committee included a complete Dominion survey of the immigration and settlement problem, the barring of Orientals from Canada shores and the banning of Communist literature and publications in this country.

The report of the immigration and land settlement committee, which was adopted, recommends that every effort be made by the government to have at least 50 per cent. of all immigration from Britain; that persons who are not prepared to accept Canadian citizenship in peace and war be not encouraged to come to Canada; that every effort be made to prevent the location of non-English speaking peoples in large blocks, and that "free passages to British boys and girls, when accompanied by parents or guardians, should be continued to those who have attained the age of 17 years and over."

The sections of the report recommending that provincial commands urge the branches to organize committees to survey the farm employment possibilities and settlement in their districts, and for a closer co-operation between the British and Canadian legions for a better selection of men suitable for settlement in Canada were adopted as presented.

Forkie Will Tour West

Minister Of Immigration To Visit Western Canada Shortly

Ottawa.—Hon. Robert Forke, Minister of Immigration, will visit Western Canada this summer on immigration matters.

Mr. Forke's trip will carry him through to the Pacific Coast. The itinerary of Mr. Forke has not yet been arranged, but the likelihood is that he will leave Ottawa within the next three or four weeks, visiting all the important Western cities. A definite announcement of his program will be available shortly.

Mr. Forke probably will seek provincial co-operation in immigration work as recommended in the report of the parliamentary Immigration Inquiry presented during the recent session of parliament.

Conference A Success

First Annual "Farm Women's Week" Held At Saskatoon

Saskatoon.—Close to 150 delegates attended the first annual "Farm Women's Week," at the University of Saskatchewan. The conference, arranged by the United Farmers of Canada, Saskatchewan section, in co-operation with the University of Saskatchewan, was a most successful venture, and is the first of its kind held in the province and, so far as is known, in Canada. As much of the business of the program concerned only the United Farmers' Organization, some of the sessions were closed to the press and public.

A statue of William Saskatchewan, cut in glass and over 24 feet high, has been made for a London Park.

The Calgary Stampede — An-
other introduction to the public of
Knights of the Range, Kings of
the Saddle and Rope; competing
for Canadian and North American
championship honors in pic-
turesque, romantic and spec-
tacular pageants and contests in-
cidental to their country.

Here gather the reivers of the
hills and plains, the cowboys and
cowgirls from Rio Grande to the
Peace River, the pioneers and the
veterans of the original Royal
Northwest Mounted Police who

contributed so much to the pro-
gress of the West to-day. Skill
and brains will compete with
skill and brains when the cow-
boys climb the bucking bronchos
for the title of the world's buck-
ing champ.

Thousands will see the old cov-
ered wagon race against the fleet
bareback Indian riders, during
the mock battle.

The exhibition stampede will
be held July 9th to the 14th, and
is to be opened by His Excellen-

cy Viscount Willingdon, who will
ride at the head of the great
stampede parade. He will be
accompanied by Her Excellency
Lady Willingdon who herself is
to participate in several events
during the week. For this par-
ticular event the Canadian Pa-
cific Railway are co-operating
to the extent of offering reduced
rates to Banff with stop-over at
Calgary, thus enabling visitors to
be guests of the Banff Springs
Hotel which is only a three hours
motor ride from Calgary.

Stony Plain and District.

The Ulmer Sinner case was on the docket, this week, for a hearing in the Supreme Court, Edmonton, but owing to the illness of Mr Van Allen, counsel for defendants, the case has been set over to the September Assizes. Mr Van Allen is recovering from the effects of a recent operation.

Contractor Karl Mayer is engaged at present in erecting a dwelling house on First street for Mr Turlock.

The local band is at present having some very energetic practices, in preparation for their big engagement on Dominion Day.

The recent goods rains have freshened up the crops in this district, and the farmers are hoping for bumper returns.

M M Mecklenburg, the well known optical specialist, will be at the Royal Hotel, Stony Plain, on Friday, June 1st. See him and see well.

Sporting Notes.

Several basketball and baseball games, to have been played Friday evening by local juniors, had to be postponed on account of rain. These will be pulled off tomorrow (Friday) evening, weather permitting.

The Public school's junior ball players made another unsuccessful attempt, on Saturday, to play Glory Hills team. When the Public's team arrived, the G.H. team wasn't there.

Warden Items.

On Sunday, June 3rd, the young people of Warden district enjoyed a very pleasant outing in the form of a weenie roast. They left about 11 a.m. from the schoolhouse and motored down to the river. The weather proved favorable, so that a very enjoyable day was spent by all. Those present were the Misses Annis and Mildred Liebert, Olive Jamison, Ivy Powell, Helen Wilray, Mabel Ellis, Elsie and Freda Litzengerger; Messrs J Evjen, M Bower, H Washburn, W Washburn, E Anderson, J Powell, E & S Jamison, W Litzengerger.

Holborn Happenings.

The water in the river has been rising steadily, caused by the recent heavy rains. Ferryman Clausen did not consider it safe to operate on Saturday afternoon last, as the current was running pretty stiff.

Telfordville Local U. F. A. are holding their annual picnic on Wednesday, July 4th. Ball games and a big list of other events.

U. F. A. dance at Holborn Hall the evening of Friday, June 22d.

Duffield Doings

Arrangements are about completed for the big picnic here on Saturday - afternoon next, and a very interesting program has been arranged. The ball tournament will be the centre of attraction; and numerous other sporting events are on the bill. Dance in evening. Tyrrell's orchestra.

P. G. THOMSON,
BARRISTER, SOLICITOR

Because It Is Farmer Owned

Because it is farmer owned, farmers expect, and they have a right to expect, the highest possible standard of service and treatment at elevators of this farmers' company.

And many farmers tell us that they do get such service and treatment at U. G. G. Elevators.

Spruce Grove News

Mr Malcolm McLeod, of the McLeod Mercantile, has secured an appointment under the Federal Government, and will be located at Edmonton. His departure from here will be generally regretted by his host of friends.

Mr Jack Nichols, the well-known caterer of Edmonton, has leased the cafe in connection with the Spruce Grove Hotel, and started on Saturday to furnish first-class meals at reasonable prices.

Mr Walter Brox has accepted a position in the Macleod Mercantile.

The Mission services held last week at St Joseph's Church by Rev Andrew McCann, C.S.S.R., proved to be very successful. The weekday services were held in the evening, with an increasing attendance each evening to the close. Rev Father Keenan is to be congratulated on securing the services of this forceful speaker for the Mission week.

The ball game here last week resulted: Witterburn 3, Spruce Grove 9.

The road foremen in several of the divisions, on getting ready for the June road work campaign, discovered that some of their road-making machinery had been removed. In one case, two wheelers and a fresno had been loaned to a local contractor, and these had been returned to the wrong place on the completion of the job.

Mr W Graden started on Monday, to collect cream cans for the Swift Co.

Found, on the Baseline, near Spruce Grove, motor license number 65583. At Sun Office.

South Edmonton Beach.

Mr Campbell, of the Headquarters staff A. P. Police, has a summer cottage in course of erection at this Beach.

Mr Braithwaite finished his new dancing platform in time for the big free dance Saturday night.

The store and restaurant at South Edmonton Beach is now open. Messrs Atkinson and Braithwaite are the proprietors.

Six motor boats are now riding at anchor off the boat pier here, with two more to arrive on Saturday.

An electric light plant is being installed at this Beach, which will light the cottages and other places here, and will also supply nearby farm-houses.

PICNIC AT SPRUCE GROVE, FRIDAY, JUNE 29

Good Program of Sports.

Dance in Evening.

Martin's Orchestra.

Timber Berth No. 4468, situate in the Province of Alberta, comprising the North half of Section 34, Legal Subdivisions 13, 14, 15 and 16 of Section 35, and Legal Subdivisions 9, 10, 11, 13, 14, 15 and 16 of Section 36, Township 51, Range 14; Section 2, East half of Section 3, Township 52, Range 14; all West of the 5th Meridian; containing an area of 2.69 square miles, more or less, as shown on printed township plans dated 25th April, 1913, and 22d January, 1912, respectively.

The conditions of payment, rate of rental, royalty, etc., are contained in the Timber Regulations, a copy of which may be secured on application to the undersigned or to the Agent of Dominion Lands at Edmonton.

J. W. MARTIN,
Acting Commissioner,
Dominion Lands Administration,
Department of the Interior,
Ottawa, June 1, 1928.

Tenders for School House.

SEALED TENDERS will be received by the Board of Trustees of Atim Lake School District No. 3205 at the office of the Secretary-Treasurer up to noon of June 28th for the remodelling of the school building after Plan Number C3-C-629. Plans and specification may be obtained from the Secretary-Treasurer on payment of a deposit of \$5.00. Plans must be returned within twenty-four hours, and deposit will then be refunded. A marked cheque for five per cent of the amount of tender should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.

N. SCHMELMUND,
Secretary-Treasurer.
P.O. Spruce Grove.
Nearest Station, Spruce Grove.
Miles distant, 4.

INGA MUNICIPAL DISTRICT NO. 520.

Notice is hereby given that if all arrears of taxes imposed in 1927 in respect of any parcel of land situated within this Municipality are not paid on or before the First Day of July next, such land will be dealt with under the provisions of The Tax Recovery Act, 1922, with a view to obtaining certificate of title in the name of the Municipality in respect of such parcel.

E. H. PIDGEON,
Secretary-Treasurer
M. D. of Inga No. 520.
